

How we will supply

DentalXpress will supply patient orders via Australia post and all orders can be made by phone, fax or via the web

Patient support

Later this year DentalXpress will provide direction for home use of our range of products in a nice presentation kit. In time these kits will also be available for sale through Henry Schein Halas if you wish to supply them yourself.

Service

We take web orders 24 hours and our customer service line is open from 8.30am - 5pm weekdays EST.

We supply orders freight free to your customers for orders over \$50.

Website

Our website www.dentalxpress.com.au features a wide range of interesting articles plus information on how to order.

Introducing DentalXpress

A new way for your patients
to receive continuation of care

Who are we?

DentalXpress is a new company that utilises the distribution centres of Henry Schein Halas and their customer service network to provide your patients with direct access to over the counter preventive care and Minimal Intervention products. At DentalXpress we are aware that some dentists have been selling products over the counter for a number of years. Whilst some of you are happy to supply to patients with or without a profit we are conscious that a number of patients contact us on a regular basis wanting to buy retail. We have set up DentalXpress to take care of small retail orders as an additional service for those who would prefer not to retail.

Ordering process

Your patients can order from DentalXpress in the following ways:

1. order online www.dentalxpress.com.au
2. phone our friendly team 1300 854 529
3. fax 1300 655 963

Benefits to you...

- DentalXpress provides your patients with homecare products for use between visits with website support and information.
- DentalXpress takes away the need for you to carry large amounts of product to supply to patients
- DentalXpress takes away the concerns you may have with GST on small retail invoices to customers
- DentalXpress price products at a level that will not compete with you should you wish to continue supplying your patients.
- DentalXpress is committed to making a difference in the dental health of people throughout Australia.

In return for your support and advocacy of DentalXpress we will donate a percentage of our annual profits to Dental research or charity.

We appreciate your support.
